SPECIALIZATION

SAKR Engineering L.L.C., is a leading company in construction projects services such as:

- 1) Quantity Surveying and Cost Estimation.**
- 2) MS Project / Primavera scheduling.**
- 3) Review and stamp structural drawings and obtain city permits.**
- 4) Structural Rebar Shop Drawings & Bar Bending Schedules.**
- 5) All types of Architectural Shop drawings “ e.g. Block work, finishes, ceiling, floor & wall tiling..etc”.**
- 6) Structural Designs & 3D Modeling.**

- **SALIENT FEATURES OF OUTSOURCING OUR TEAM**

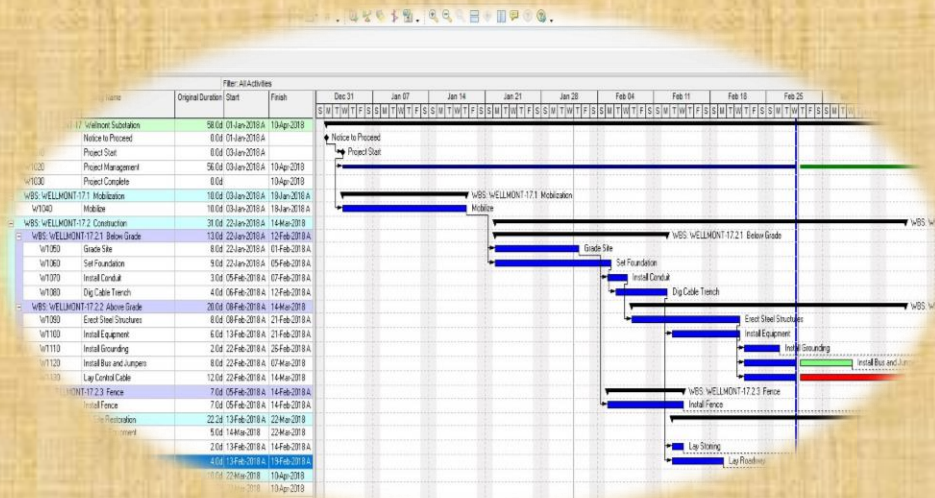

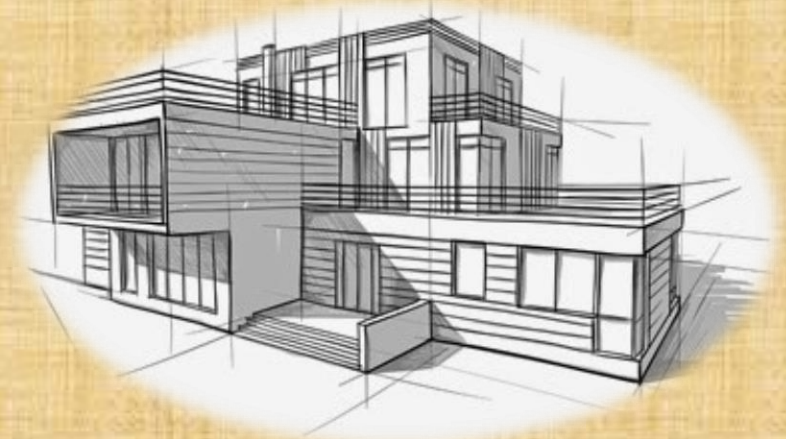

- ▶ You can avoid investing in computers, software's, printers and other consumables.
- ▶ You can avoid extra employee benefits like gratuity, annual benefits, and there is no production loss due to medial leave, Annual leave etc.
- ▶ The Shop Drawings developed by us are of good clear quality, And site visit can be done upon request.
- ▶ Shop drawings, Quantity surveying & Models generated by Us will be of high quality complying with International Standard of Detailing and also tailored to meet Client's requirement.
- ▶ With our exceedingly flexible and quick detailing services you can confidently accept projects with the tightest of deadlines.
- ▶ We have the expertise to communicate effectively, interact with your team, manage workflow, handle RFI's and deal with deadlines, smoothly and easily.
- ▶ We are available in person and most inquiries are answered and resolved instantly. We are always accessible and are never more than a phone call away. You can think of SAKR ENGINEERING L.L.C., not only as a Sub-contractor/Designer but also as an extension or part of your team. We are proud of the solid alliances that we create with our clients and believe that by working closely together we ensure successful ventures that generate results.
